DETAILED ACTION

1. The Art Unit location of your application in the USPTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 2617.

Response to Amendment

1. Claims 1-20 has been Cancelled.
2. Claims 21-24 are New.

Response to Arguments

1. Applicant's arguments with respect to claims 21-24 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 22-24 recites the limitation "wherein said management unit is a..." in claim 21. There is insufficient antecedent basis for this limitation in the claim.

Claim 21 is a "...cellular system having an interface unit comprising a first interface functionality connected with at least one management element of the cellular

system..." The management unit in claims 22-24 is inconsistent with the management element with claim 21. Correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 21-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Kotzin et al. (2004/0009774 A1; hereinafter Kotzin).

Regarding claim 21, Kotzin discloses in a cellular network system (Abstract), an interface unit comprising a first interface functionally connected with at least one management element of the cellular network (Network: Fig. 1), a second interface functionally connected to the public internet and adapted to provide authorized entities connected to the Internet access to one or more cellular network services (Fig. 1; Page 3, [0022]).

Art Unit: 2617

Regarding claim 22, Kotzin discloses the interface according to claim 21, wherein said management unit is a base station controller (BSC: Fig. 1, no. 22).

Regarding claim 23, Kotzin discloses the interface according to claim 21, wherein said management unit is a mobile switching service center (MSC: Fig. 1, no. 24)

Regarding claim 24, Kotzin discloses the interface according to claim 21, wherein said management unit is a high level control (Fig. 1, no. 20).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
